

ELECTRICAL EQUIPMENT MFG. (NAICS 33531)

INDUSTRY DEFINITION AND RELATED INDUSTRIES

NAICS 33521: Electrical Equipment Mfg.

This industry comprises establishments primarily engaged in manufacturing power, distribution, and specialty transformers; electric motors, generators, and motor generator sets; switchgear and switchboard apparatus; relays; and industrial controls.

Related Industries

- Small Electrical Appliance Mfg.
- Household Appliance Mfg.
- Semiconductor Mfg.

U.S. Census Categories

NAICS 33521: Electrical Equipment Mfg. is almost comparable to:

18% of SIC 3621– Motors & generators

100% of SIC 3625– Power, distribution, & specialty transformer mfg

Sub-Industries

- Synchronous condensers, electric
- Synchros
- Control equipment for electric buses and locomotives
- Control equipment for buses or trucks, electric
- Railway motors and control equipment, electric
- Starting equipment, street cars
- Generating apparatus and parts, electrical
- Relays and industrial controls
- Motor controls and accessories
- Motor control accessories, including overload relays
- Motor control centers
- Motor controls, electric
- Motor starters and controllers, electric
