

# ENGINEERING SERVICES INDUSTRY (NAICS 54133)

## INDUSTRY DEFINITION AND RELATED INDUSTRIES

**NAICS 54133: Engineering Services.** This industry comprises establishments primarily engaged in applying physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, structures, processes, and systems. The assignments undertaken by these establishments may involve any of the following activities: provision of advice, preparation of feasibility studies, preparation of preliminary and final plans and designs, provision of technical services during the construction or installation phase, inspection and evaluation of engineering projects, and related services.

### Related Industries

- Drafting Services
- Geophysical Surveying
- Building Inspection Services
- Testing Laboratories

### U.S. Census Categories

NAICS 54133 – Engineering Services is 100% comparable to  
SIC 8711 – Engineering Services

### Sub-Industries

Engineering services	Heating and ventilation engineering
Sanitary engineers	Structural engineering
Pollution control engineering	Acoustical engineering
Industrial engineers	Aviation and/or aeronautical engineering
Machine tool design	Consulting engineer
Mechanical engineering	Designing: ship, boat, machine, and product
Petroleum, mining, and chemical engineers	Electrical or electronic engineering
Chemical engineering	Energy conservation engineering
Mining engineer	Fire protection engineering
Petroleum engineering	Marine engineering
Construction and civil engineering	Professional engineer
Building construction consultant	
Civil engineering
