

The **2022 World Industry & Market** report series is the leading annual collection of publications that describe over 120 major worldwide industries and 500+ minor industries. Published each year in January, the report series provides the most current and accurate estimates of the size of the largest manufacturing, retail, wholesale and services industries for the largest 60 countries in the world.

With over 260 pages each, the 2022 edition of the **World Industry & Market** report series feature:

- 2022 establishments, employment and sales totals for each industry in each country
- 2022 forecast establishments, employment and sales totals for each industry in each country
- 5-year trend establishments and sales totals
- Industry financial ratios such as sales per employees, sales per establishment and employees per establishment
- 2022 establishments, employment and sales totals for up to 10 sub-industries for each industry
- Industry definitions and descriptions

The countries in each report include:

| • Colombia | • Ireland | • Phillipines | • Switzerland | |
| • Czech Rep | • Israel | • Poland | • Taiwan | |
| • Denmark | • Italy | • Portugal | | |
| • Egypt | • Japan | | | |

METHODOLOGY AND SOURCES

The methodology used to create these estimates and forecasts are based on U.S. Census as well as other sources (The Economist, The Heritage Foundation, private research studies, trade association studies, etc.).

The report series is unique because it is 1) timely (the most recent Census data) and 2) highly accurate (our proprietary economic model uses regression analysis for its forecasts as well as a number of data resources to produce consensus industry estimates).

BARNES REPORTS

Barnes Reports provide the most current and accurate estimates of the size of the largest manufacturing, retail, wholesale and services industries in the United States and the World.
